

2024-2025 TAEP Application A – Quick Reference Guide

TAEP Application A offers a variety of cost share programs for agricultural producers involved in the production of cattle, dairy, goats/sheep, hay, poultry, row crop, and swine. Producers must meet basic applicant eligibility and specific program requirements to apply.

Applicant must meet at least one of the minimum requirements of head of livestock or acres in production for program selected. Each program has a minimum requirement of head of livestock or acres in production. Verification of minimum requirements may be requested prior to approval.

- **Head of Livestock** = maximum number of single type, regardless of sex or age, at any one time during the last 12 months. Eligible livestock include cattle and goats/sheep. Goats/sheep can be combined to meet minimum head requirement.
- **Hay Acreage** = acres of hay in production (first cutting only). Acreage can be owned or leased. Applicant may be required to list location of acres at time of reimbursement.
- **Row Crop Acreage** = acres of row crop production of corn, cotton, soybeans, and/or wheat. Acreage can be owned or leased. Applicant may be required to list location of acres at time of reimbursement.

TAEP Application A

Livestock Equipment						
* If an applicant meets the minimum requirements for any TAEP Application A program, they are not eligible for the Beginning Farmer Option but may apply for the program for which they are eligible. Applicant must meet TAEP's Beginning Farmer Option requirements to be considered a beginning farmer for purposes of TAEP participation. See pg. 2 for complete Beginning Farmer Option requirements.						

Application A – Beginning Farmer Option

IMPORTANT - If an applicant meets the minimum requirements for **any** TAEF Application A program, they are **not eligible** for the Beginning Farmer Option but may apply for the program for which they are eligible.

To be considered a beginning farmer for the purposes of TAEF, the applicant must meet TAEF's Beginning Farmer Option requirements.

This program option allows applicants, **who do not meet the current minimum requirements for any TAEF Application A program**, the opportunity to participate with reduced minimum requirements in select programs (Genetics or Livestock Equipment). The purpose of this option is to help the beginning farmer applicant improve their operation with the goal of meeting TAEF minimum livestock/acreage requirements in the future.

TAEF allows applicants to participate in the Beginning Farmer Option for **two consecutive** years if they meet the Beginning Farmer Option requirements except for first time TAEF applicant for the second year.

Applicant must meet all Beginning Farmer Option requirements:

- **First time TAEF applicant** – 2024 will be the **first year** the applicant has applied for TAEF cost share funding.
- **Farming ten years of less** – applicant must be actively involved in the production of livestock at time of application and must have started their farming operation after January 1, 2014.
- **Federal IRS Schedule F (Form 1040) Filing** – applicant must have filed a Federal IRS Schedule F (Form 1040), Profit or Loss from Farming, within the last two years (2022 or 2023) unless the applicant began their operation in 2024. Applicant may be asked to submit a copy of their Schedule F prior to TAEF approval to verify their farming operation.
- **Educational Requirement** – if applicant is approved as a TAEF Beginning Farmer, applicant will be required to complete the **UT Farming Fundamentals** or **TSU New Farmer Academy** certification to be considered for cost share reimbursement. *Proof of UT Farming Fundamentals or TSU New Farmer Academy certification is required at time of reimbursement (not at time of application). Certificates issued 2021 or after will be accepted.*
- **Reduced Minimum Requirements** – the program minimum requirements are reduced for applicants qualifying for the TAEF Beginning Farmer Option.

Applicant must meet at least **one** of the minimum livestock requirements for program applied for.

- 5-29 head of cattle – *Genetics or Livestock Equipment*
- 10-49 head of goats/sheep – *Genetics or Livestock Equipment*

Head of Livestock = maximum number of single type, regardless of sex or age, at any one time during the last 12 months. Eligible livestock include cattle and goats/sheep. Goats/sheep can be combined to meet minimum head requirement.
