Ladies and Gentlemen:

I am pleased to present to you the 2023 Crime in Tennessee annual report. The Tennessee Bureau of Investigation's CJIS Support Center compiles and publishes this report based upon crime statistics submitted by all policing agencies across the state. The agencies report crimes to the Tennessee Incident Based Reporting System (TIBRS), which is the state's version of the FBI's National Incident Based Reporting System (NIBRS).

Incident-based reporting views a crime and all its components as an "incident." Information about the crime, including details of the offense, victim, offender, property, arrestees, and the relationship between the people involved are all reported. Because of the extent of detailed data collected, the TIBRS program provides an even more accurate depiction of crime in each community than the Uniform Crime Report (UCR) published by the FBI.

The TIBRS program continues to serve as a model for the nation and remains successful because of the continued cooperation by Tennessee's policing community. The TBI provides TIBRS training to commissioned and non-commissioned policing personnel across the state. TBI remains committed to this effort and will continue to provide the training and technical assistance necessary to collect the most accurate and comprehensive crime statistics for Tennessee and its citizens.

As always, we strongly discourage ranking of policing agencies according to the statistics. There are too many demographic, socio-economic and other factors out of the control of policing that contribute to the nature of the crimes committed. Crime varies from place to place and ranking the agencies based solely on numbers would neither be fair to the agencies nor their communities.

I would like to thank all participating policing agencies for their hard work and contributions to making this report a thorough and accurate picture of crime in Tennessee. It is only with their support that our state continues to maintain such a successful program.

Sincerely,

David Rausch
Director

QUICK FACTS

Tennessee's law enforcement agencies report crime data to the Tennessee Bureau of Investigation through the Tennessee Incident-Based Reporting System, also known as TIBRS.

This comprehensive system collects incident-level data on crimes, allowing the public and law enforcement agencies to have a thorough understanding of the crimes impacting communities across Tennessee. The system categorizes crimes into two groups, outlined in the box below.

The 2023 data, after being extensively audited, was extracted on June 17, 2024, and compiled into this year's report.

For more details on TIBRS, visit our website: Crimeinsight.TBI.TN.gov
